Thanks David - MECA won't be able to make the Sacramento hearing on this waiver request. Is the EPA Potomac Yard conference center near the Crystal City Metro stop?

hearing

David - MECA would like to present a brief statement in support of the California light-duty greenhouse gas waiver request at the scheduled May 22 public hearing in Washington. I will be speaking for MECA. I would appreciate information on the location of the hearing when it is available. Thank you.
